

HEAVY-DUTY

SERRATED SEALS

1/2"
12 mm
1000 per case
180 cases per pallet
16 lbs. per case.

5/8"
16 mm
1000 per case
120 cases per pallet
23 lbs. per case.

Heavy-duty serrated seals are for extruded polyester (PET) and polypro (PP) strapping. The serrations grip the poly strapping and give a much better joint efficiency than the standard poly seal. This seal is used with an offset sealer. Serrated seals are used on smooth polyester strapping and polypropylene strapping.
